|-------|--|---|---------|-------------------------|----|-------------|-----------|-----|
| 83168 | Gap Bottleneck Improvement | At the intersection of PA 41 and US 30, the project proposes to realign PA 41 to provide straight access via two lanes to the new US 30 westbound alignment. PA 41 will be widened for approximately 1100 feet starting at the US 30 intersection before tapering back to the existing sections. At the intersection of PA 772 and US 30, improvements will widen PA 772 to accommodate a turning lane and connect the intersection to a planned development south of US 30. Slightly to the north on PA 772, a new intersection will be created at the proposed US 30 westbound alignment. The intersection will allow two lanes of US 30 westbound traffic to travel through the intersection and turning lanes to access north- and southbound PA 772. After the intersection of PA 772 and proposed US 30 westbound, the new US 30 westbound will tie back into US 30 mainline as a through movement. US 30 mainline will be widened to accommodate a four lane road before tapering back into the existing two-lane configuration with a center turning lane. Demo ID: TEA-21, PA ID#115 and PA ID#412. | PENNDOT | Final Design | 30 | \$(55,333) | \$0 | \$0 |
